

CME Confirmation

Record of attendance of the scientific programme at
ECR 2014 – 26th European Congress of Radiology

This certificate confirms that

Mrs. Dr. Irina Pashnikova
Invest-in-the-youth

has attended ECR 2014 (March 6–10, 2014, Vienna/Austria) and participated in the listed events. This report is generated from accreditation data collected from participant evaluation forms deposited at the exit of each lecture. The list may not reflect the total hours of attendance of the scientific programme if the participant's evaluation form was not collected or if the participant failed to correctly and legibly complete his/her form. Confirmation of any additional attendance of the scientific programme, for which the participant has not turned in an evaluation form during the congress, cannot be claimed at a later date. Although participants may partially attend multiple concurrent sessions, the total number of hours printed at the end of the list limits the credit to the equivalent of a single session during that time slot. A maximum of 3 hours attendance of the Scientific Exhibition (SE) is listed if the participant has completed the online SE - evaluation form using EPOS™ (Electronic Presentation Online System). This record of attendance is available only to the designated individual and will not be supplied to accrediting agencies and other organisations/health authorities. It can be downloaded and printed out via the 'MyUserArea' at myESR.org/myuserarea.

Prof. Valentin Sinitsyn
ECR 2014 Congress President

Mrs. Dr. Irina Pashnikova

The Saint-Petersburg Military Medical Academy
Solidarnosti prospect., 14-1-171

Personal ID: 444707
Date of print: June 5, 2014

EUROPE

The Austrian Medical Chamber has granted a maximum of 40 DFP (Diplom-Fortbildungs-Programm der Österreichischen Akademie der Ärzte) credits for ECR 2014. This accreditation is accepted by all European countries which have mandatory CME for their physicians. No further accreditation with the UEMS has been applied for.

WORLDWIDE

CME points claimed at the ECR are accepted by the majority of national CME authorities worldwide which have mandatory CME for their physicians. Please consult your national jurisdiction for the maximum number of CME points they will approve following your attendance at ECR 2014.

USA

As the ECR 2014 has not applied for UEMS accreditation, the agreement of mutual recognition by the American Medical Association (AMA) is not applicable. Please consult your regional, state or national jurisdiction for information on approval of the CME points granted at ECR 2014.
